 Corporate Offices	<ul style="list-style-type: none">• Fixed Asset Management & Tracking• Laptop / Employee Movement Tracking• IP-surveillance, Access Control
 Custom Applications	<ul style="list-style-type: none">• School Bus and Students Tracking• Event Delegate Management• Laundry Management etc.

Delegate Management: Challenges

- Tedious and time consuming registration processes lead to crowding at the registration counters
- Printed ID-cards provide limited information about delegate movement; also difficult to control access to restricted areas
- Unavailability of real time information means that organisers unable to take proactive corrective actions. Managing resources like food, cleaning attendants, security personnel etc. based on delegate flow is not possible
- Delegates looking for an enhanced experience miss out on the “WOW” factor

Solution Overview: ID-Cards

- RFID enabled corporate style ID-cards with lanyards / yo-yo belt-clips
- Details such as Name, Contact Number and Address stored on the card in electronic format
- Facility for online registration. Pre-coded, pre-printed cards to be mailed to those registering online
- Blank Cards and Card Printers to be used for spot registrations

Solution Overview: Registration

- Pre-registered delegates can mark their arrival simply by tapping the ID cards mailed to them on the reader placed at the registration desk.
- A personalized welcome note may be displayed on the screen when the card is tapped a welcome SMS can be sent to the registered number
- For spot registrations the application will have a facility to print name stickers, capture an image and encode contact details onto the RFID card.

Windows Desktop Application

NeoTechID USICON 2013 Management System

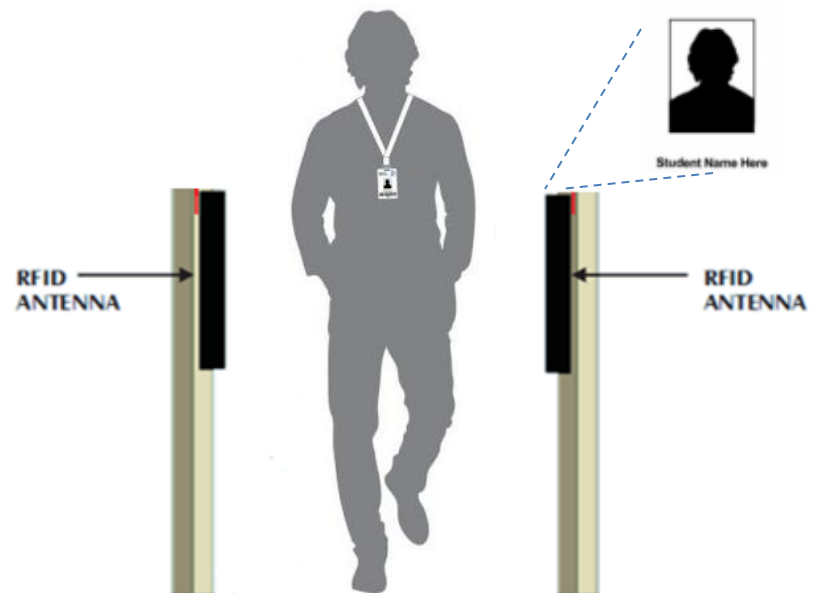

Registration Module

USICON 2013 pune

Name:	Dr. Sanjeev Kanitkar		
Mobile No.	+91 9822036684		
Address Line 1	1098/18, Model Colony		
Address Line 2	Shivajinagar		
City	Pune	Pin	411016
Registration No :	S-1234	Capture Photo	

Solution Overview: Delegate Movement Tracking

- A screen outside each section will display the event under way inside the section
- Anyone interested in attending the event will be required to present his/her card while entering /exiting the room
- A Welcome note will be displayed on the screen while entering the room and the room section capacity counter will be incremented/decremented in real time
- The system can be extended to long distance RFID tracking. As delegates pass through various entry/exit points they will be detected automatically without having to present/tap their cards

Solution Overview: Food Management

- The ID cards can also be configured to be used as a meal pass
- The delegates are simply required to tap their cards on the RFID reader placed at the plates counter
- Each card can be used only once for each meal. If presented a second time, INVALID message will show up on the computer screen

Information Exchange & Reporting

- When attendees visit sponsor stalls the card can be used to quickly exchange contact information rather than filling guest journals/diaries.
- The data can also be used for lead generation and sales activity
- The data from the delegate movement reports can also be effectively used for post event analysis and planning of future events.

Solution Benefits

- Eliminates problem of counterfeit passes
- Reduced processing time and crowd at registration desk
- Notifications on VIPs arrival
- Delegate access to authorised locations only
- Quick and easy sharing of details with sponsors
- Real time and historical tracking information
- Effective management of food coupons/passes

Our Value Proposition

- **Expertise in RFID** and practical experience gained through our projects.
- **Knowledge Centers** made up of our IT engineers, advanced equipment, and consultants are able to derive the best solutions for our clients.
- **Support Infrastructure** comprising of software and hardware channel partners help achieve client satisfaction every single time.
- **Focus** on consistently meeting the expectations of our customers and more. We do our level best to offer you a solution that not only meets your requirements but is also cost effective.
